Free Course Offerings & Instruction	
Reading and Writing Lessons	Learners are matched with individual tutors who work with them at any level to improve reading and writing skills. Learners can also get help with specific needs (i.e. fill out workplace forms, study for the driver's license exam, financial literacy, and health literacy). Tutors can also help learners prepare for job certification tests, such as Food Handling, Cosmetology, and Nursing.
English Language Lessons	Learners who want to improve their English language skills have two options: 1) join an <i>Everyday English</i> group or 2) work with an individual tutor. Learners are encouraged to participate in both.
Everyday English <i>For English Language Learners</i>	Adult Learners can practice their English communication skills through guided conversation groups. Volunteer tutors assist "English as a Second Language" learners with pronunciation, grammar, vocabulary, and understanding American idioms.
Citizenship Classes	Citizenship Classes teach adult learners the basic knowledge needed to pass the U.S. Naturalization Exam. Topics include: American history, branches of government, courts and legal system, and famous Americans. This class focuses on speaking, reading, and writing skills. Sample test questions and interview practice are also provided.
Interviewing Experience <i>For English Language Learners</i>	Learners can practice their English communication and interviewing skills in this instructor-led class. Common interview questions and answers will be reviewed and practiced.
Pre-GED Foundations	Adult Learners can prepare for the GED Exam by meeting in small study circles or with an individual tutor. Topics also include: forming good study habits, note-taking skills, and test-taking strategies.
